CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

In this class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with confidency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They can-

Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills and Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect her own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,	Elephantiasis,	Sore Throats,
Bunions	Fistulas,	Skin Diseases

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these life-purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertical dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine,

The Female's Best Friend.

For all debilitating disorders peculiar to the sex, and every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colics	Indigestion	Tumours
Constipation the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause
Dysentery	Piles	
Erysipelas	Rheumatism	
	Retention of Urine

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD,

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1866, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. [illegible] and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, [illegible]

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

They are the cheapest Cartridges known, carrying their own ignition, and being made wholly of Metal, are Waterproof and imperishable in any climate.

Boxer Cartridge Cases (empty), of all three sizes, packed with or without bullets, and machine for fastening same in Cartridges.

Makers of **Boxer Cartridges** .450 bore, for Revolving Pistols, in use in Her Majesty's Navy.

Pin Cartridges for Lefaucheux Revolvers of 12 M., 9 M., and 7 M. bore,

Central Fire and **Pin Fire Cartridges**, for all sizes of Guns, Rifles and Revolvers.

Double Waterproof and E B Cases. Wire Cartridges for killing game at long distances. Felt Waddings to improve the shooting of guns; and every description of Sporting and Military Ammunition.

The English Budget.

The merit of Mr Ward Hunt the new Chancellor of the Exchequer, under the Disraeli administration, seems to be conciseness. It certainly is not often that we see the national expenditure so summarily disposed of in its introduction to Parliament, as it was this year by Mr. Hunt, at the same time there was no ambiguity or reservation. Upon the whole, with one or two slight exceptions, Mr Gladstone was complimentary in his remarks upon the Estimates, and we may, therefore, safely conclude that the Ministry had not laid themselves open to very severe attack, by assuming positions in reference to the future revenue that were not likely to be maintained. By reading the debate, it will be found that the only general expression bearing upon censure, was the tendency to a permanent increase in the national expenditure; but this evil cannot fairly be visited upon the present Ministry. A few years ago, when the national revenue for the first time reached the enormous sum of £69,000,000, in round numbers, and there was a surplus of £2,000,000, or thereabouts, if we recollect rightly, it was made a subject of general congratulation and self-laudation. But the English Government, it seems, like all other people [illegible] at their control, have gone on increasing the national expenditure until the enormous surplus mentioned is gone, and the future resources invaded to make things tolerably comfortable. To this high expenditure, no matter from what source it emanates, Messrs Gladstone, Baring, White, Childers, Fawcett, Col Sykes and others strongly objected, and trusted the day was not distant when the incidence of taxation will be taken up by Parliament and thoroughly investigated. The estimated expenditure for the present year is £70,428,000; the total estimated revenue, £71,350,000, leaving a surplus of £922,000; but it was distinctly stated that the whole of that surplus was included in the *arrears* of collection on the income tax, so that after all, there may possibly be again a deficit the same as there was the two preceding years. In choosing whether he should temporarily raise the income tax or increase the taxation upon articles of general consumption, the Chancellor was commended for selecting the former. Most of the leading members do not regard the Abyssinian war as the cause of the increased expenditure or likely to give any trouble; for the £3,000,000 which have yet to be expended on that account are provided for with only a deduction of £[illegible] 000 from the grand surplus for the year already given. This enormous increase in our national expenses was commenced, it is alleged, under Lord Palmerston, who desired to rival the bloated armaments of European powers, and has gone on since, culminating principally in our modern volun[illegible] such an extent has this reached, that Mr. Gladstone said "it made enormous increase in expenditure the normal condition of things in times of peace; and if continued must compel our system of national expenditure to be reviewed and revised." Perhaps it is time the subject was taken up by Parliament and handled without gloves, for certainly no evil could result from such scrutiny. In times of general peace such an enormous sum as that of £70,428,000 does appear beyond all necessity. There is much justice in this complaint against military expenditure, as will be seen by the figures given; for the increase in the Navy was really only £10,000, while the Army increase is over £200,000. We can only give at present the totals of the receipts and expenditures in full, for those who may be curious to see where such vast sums come from and for what purposes they are spent. The estimated revenue of the year 1868, assuming the tea duty and the income tax to be continued at their present figure, was calculated to be: Customs, £22,800,000; excise, £20,330,000; stamps, £9,650,000; taxes, £3,540,000; property and income tax, at 4d., (including £1,007,000 arrears,) £6,900,000; Post Office, £4,650,000; Crown lands, £350,000; miscellaneous, £3,130,000; total, £71,350,000. As the estimated expenditure was £70,428,000, there would be a surplus of £922,000. The estimated expenditure was:—Interest on Debt, £26,700,000; Consolidated Fund, £1,865,000; Army, £15,456,000; Navy, £11,177,000; Civil Services, £9,173,000; Revenue department, £4,968,000; Post Office and packet service, £1,089,000; total, £70,428,000.

The Ship Moneta.

EDITOR COLONIST,—I observed a letter in your paper of yesterday signed Colonist, referring to the ship Moneta, recently burnt at Burrard Inlet. I shall be glad if I can in any way assist to clear up this rather mysterious matter. However unwilling the captain of the Moneta might at first have been to take the risk of navigating his ship to San Francisco, he is now of a different opinion, and is anxious to do so. At first I could not understand the meaning of this sudden change of opinion; Captain Turpin very simply explains the whole matter. He says, 'I can't get my ship condemned here, but if I get her to San Francisco she will surely be condemned; the underwriters will then be necessitated to pay the full claims of insurance.' Now I can easily see how this little job is to be carried out. Two or three shipmasters and a carpenter, all belonging to San Francisco, will be called upon to hold a survey on the Monita; they will easily discover, agreeable to the wishes of Captain Turpin, that the ship must go to San Francisco for repairs. I venture to state that in an English port no Englishman will be called on this survey; a cleverer case for litigation need not be wished for.

Yours obediently,
ROSEDALE.

THE QUEEN AND THE LATE MR D'ARCY MCGEE.—The London correspondent of the *Irish Times* says:—"There has come to my knowledge a circumstance highly creditable to our Sovereign, and one which must prove eminently gratifying to the widow and family of the man who, as leader of the Roman Catholic party in Canada, recently lost his life at the hands of a disaffected assassin in exercising a commanding influence on the side of law and order. I understand that the last Canadian mail brought out an autograph letter from Her Majesty to Mrs D'Arcy McGee, expressive of sympathy and condolence, and stating how highly she appreciated the exertions which her husband had made during his valued lifetime to maintain the cause of Imperial authority in the land of his adoption. The Duke of Buckingham has, I believe, also ritten to Mrs McGee, through Lord Monck, the Governor-General of Canada, conveying the regret of Her Majesty's Ministers that so able a statesman and so good a citizen should have fallen a victim to the Fenian bullet."

BY THE Royal Mail steamer from St. Thomas we learn that Captain Bax, of the steamship Eider, has had sentence of death passed on him by the authorities of that island for breaking the quarantine laws. Of course the captain won't go there again.

WE have been shown a document signed by the Mayors in office of the cities of the United States and Canada, certifying to the superior excellence of Dr. Ayer's Compound Extract of Sarsaparilla and to the value of all his remedies as articles of great public utility. Such evidence from such high sources bears us out triumphantly in the position we have long maintained with regard to Dr. Ayer's preparations, or more particularly our advertisements of them. No publishers need be more opposed than we are to the promulgation of quackery in any shape, but we knew when we began, that his remedies were above any suspicion of deception—that they were about the best it is possible to produce for the cure of disease, and that they have the confidence of all communities where they are known. Not alone because the Mayors of the whole country believe them useful to their people, but because we know from experience that they are so to ours, do we believe we are rendering a substantial service to our readers in making their virtues known to them.—[Courier, Princeton, Ky. *

HOLLOWAY'S PILLS.—Liver, Lungs and Kidneys.—A large number of internal maladies arise from obstructions, over the removal of which these celebrated Pills exercise the most perfect control. A course of them is strongly recommended as a remedy for almost all chronic affections—as liver complaint, congestion of the lungs, torpidity of the kidneys, and other functional disorders which cause much present suffering, and if neglected lay the foundations of incurable diseases. Holloway's Pills are especially adapted for the young and delicate; their gentle and purifying action places them above all other medicines. In indigestion, nervous affections, gout and rheumatism, these Pills have raised for themselves an universal fame. They expel all impurities from the blood, and thus restore cheerfulness and vigour. 45

Enticing Sailors to Desert.

The charge in the Police Court against William Lyons, of the Drury Lane Inn, for aiding H M seamen to escape was resumed yesterday. Mr McCreight, instructed by Mr Bishop, appeared for Lyons. J. Lachapelle was the principal witness for the Court. He valued the boat sold by Lyons to the sailors in question for $70, at $45. He knew the boat; had repaired her to the amount of $25; the man who managed the negotiation was dressed in civilian's clothes, to deceive Lyons, he supposed, or others he might meet while making arrangements to escape.

George Cole, a seaman belonging to the Scout—Knew the seven men; saw them leave Victoria at midnight on last Sunday week; had seen the boat in which the two dead bodies were found at Sooke; it was the same boat they left Victoria in.

Captain Price, of the Scout, and a Sergeant of Marines were examined as to the orders for sailors travelling about in boats; where they can go and where they cannot; they may go up the Arm; to Esquimalt, if necessary; but they cannot go round to Cadboro Bay or over to the Light-house; these orders are known to all H M seamen. The Sergeant further said, he had no doubt all seven were drowned; but that strictly speaking, only five were deserters, two having been found before their leave expired.

The Second Mate, formerly of the Trebolgan, and Captain Nagle were called for the defence—The only point adduced by them was a conversation had with Captain Nagle, wherein the accused said he did not wish men to go away then, as it would interfere with a crew he had to fill up at the time. The accused was ably defended by his counsel, and after a protracted hearing of the case, was remanded for sentence to day, at 11 o'clock.

THE red devils around this country are busy. Last Friday week they killed Nat. Dixon, the stage driver, on the Owyhee and Humboldt road. Beebe, the scout, with eight Boise Indians and four soldiers went after them, got on their track, came up with their camp and took 34 scalps, every Indian that was in camp; not one escaped. The number actually engaged on the part of the whites was Beebe and his Indian scouts and one or two white men, about 15 all told. The fact is, the ground these troops have to hunt over is so large, and the Indians are so on the move. The country is about 400 miles one way by 100 the other, or about 40,000 square miles, or about one soldier to every 400 square miles.—*Correspondence Walla Walla Statesman.*

THE FOURTH OF JULY.—Very many of our citizens are anxious that something should be done in the matter of getting up some sort of festivities in this city on the coming Fourth. Why allow excursions to the other side only, when the people here are always so willing to contribute towards the proper keeping of the great day of the American people. A horserace, a big picnic, or a regatta, or something might be improvised, as the day will, we presume, be kept as a holiday as is usual in this city, in compliment to so many American residents amongst us, and who took part in making our own national day so great a success. We know of course that our Scotch residents will have their games, but that is hardly enough. We hear now on authority that the Enterprise will be chartered to run to Port Townsend. We want a stir and bustle in our own midst.

BANKRUPTS.—Within the present month the following persons have been adjudged bankrupts, and warrants against their estates have been issued: John B. Wallace of Portland; Geo. E. Briggs of Kerbyville, Josephine county; Linville Bowers of Benton county; Leisan Cohn of Portland; Alexander Steifel of Benton county; James W. Murray of Portland; Jacob Holgate of Corvallis, Oregon; Wesley C. Hull of Orodell, Union county, Oregon—all on their own petitions.—*Oregon Paper.*

TEN DAYS TO NEW YORK.—By work already entered upon it is stated that the Union and Pacific Companies will have their rails laid on or before January next, to points which will leave but 512 miles to complete the connection. This gap will be filled by stage inside of three days' time, so that we may reasonably hope to be able to make the distance between San Francisco and New York in ten days, by the first of January next.—*Stockton Gazette.*

THE steamer Eliza Anderson arrived from the Sound yesterday morning. She brought 13 passengers, but her freight was unusually small.

ANOTHER INDIAN RUMOR.—A local fight is said to be going on between two tribes on the West Coast, which promises the extinction of one or the other. The master of a sloop, lately arrived, saw, it is reported, six Indian heads hanging up in a rancherie, the owners of which threatened to serve white men the same way if they interfered.

GOLD discoveries are reported in new regions of South Africa. The Natal papers says that two large gold fields have recently been discovered—one near the Zambesi river, and the other about nine hundred miles northwest of Natal. The latter gold field is said to be sixty miles long and twenty broad, the gold is found in quartz.

MASONIC PICNIC.—In consequence of the weather proving so unfavorable, the intended Masonic Picnic is postponed till to-morrow. The postponement of the Picnic will not interfere with the usual annual celebration in other respects; and the craft, as announced, will attend St. John's Church this morning.

THE appropriation of the Basutos Territory by the English Government at the Cape of Good Hope, makes another valuable addition to that Colony. The Basutos have long given great trouble, but the mineral and agricultural value of their possessions will repay us amply henceforth.

TELEGRAPH DESPATCHES.—The news given in to-days' issue was received *via* Seattle, per stmr Eliza Anderson. We hope to be able to receive additional despatches by the steamer *via* New Westminster, until the "break" is repaired.

GLORIOUS RAIN.—Late on Monday night the rain began to fall quietly; all yesterday it increased, and at night promised to continue for another day. It is the most valuable rain of the season.

THE steamer Enterprise left for New Westminster at noon yesterday. She took a few passengers, amongst whom was Rev. Mr Somerville, and about 50 tons of freight.

Canada and British Columbia.

The following is a copy of a report of a committee of the Privy Council approved by his Excellency the Governor-General in Council on March 6, 1868, on the subject of the admission of British Columbia into the confederation:—

The committee have had under consideration a memorandum dated 5th March, 1868, from the Minister of Public Works, stating that certain resolutions on the subject of union with Canada, adopted at a public meeting of the inhabitants of Victoria, British Columbia, on the 29th of January last, transmitted through the Hon. Mr. Tilley to the Secretary of State for Canada, were on the 3rd inst referred to a committee of the Privy Council and referred to the Hon the Minister of Public Works for immediate report.

That he has read and duly considered the purport of these resolutions, the circumstances under which they were passed and the action which ought to be taken by the Government of Canada thereupon.

That it appears from these resolutions and memorial of the committee appointed at a public meeting which occurred there that the Legislative Council of British Columbia, on the 18th March, 1867, unanimously adopted a resolution requesting his Excellency Governor Seymour to take measures without delay to secure the admission of British Columbia into the Canadian confederacy on fair and equitable terms.

That it appears further that neither the people of British Columbia nor the Government of Canada have been apprised of any measure that may have been taken by the Government of British Columbia in pursuance of the resolution of the Legislature, [illegible]

That the resolutions adopted at a public meeting of the 29th January, which was called and presided over by the Mayor of Victoria, the chief city of the colony, and the statement of the memorial signed by the Mayor and by members of the Legislature and others, leave little room to doubt that the people of that colony are willing and anxious that it should be admitted into the union with Canada, if the terms of admission can be agreed upon.

The Minister of Public Works calls attention to the 146th section of the British North America Act, which applies to the case of British Columbia on express terms.

That it will be seen the resolution of the Legislative Council was passed before the British North America Act came into force, and that it did not specify the terms of admission which the Council asked the Government to secure.

That it is evident, therefore, that further action is necessary by the Legislature of British Columbia before admisson can take place under the provisions of the Imperial Act.

That it is suggested in the memorial of the Mayor and other citizens of Victoria that the Legislature of that colony, being largely composed of officials, is not so zealous for confederation as the people whose opinions and wishes it ought to represent.

The Minister submits that, considering the peculiar Constitution of the Legislature and Government of British Columbia, and that notwithstanding the resolution of the Legislative Council in March last year, and the resolutions of public meetings and expression of opinion through the press of the colony, before and since the act of confederation, in favor of union with Canada, no official communication on the subject from British Columbia has reached this Government. He would recommend that your Excellency communicate to the Duke of Buckingham a copy of the memorial and resolutions referred to, and request his Grace to instruct Governor Seymour to take such steps as may be deemed proper to move the Legislative Council of British Columbia to further action in terms of the Imperial act.

He further recommends that his Grace be informed that the Government of Canada will be prepared to submit to Parliament a proposal for the admission of British Columbia into the union in the expectation that the Imperial Government will lose no time in transferring the intervening North Western Territory to the jurisdiction of the Canadian Government.—*English paper.*

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Europe.

LONDON, June 20—To-day being the anniversary of the accession of her Majesty Queen Victoria to the throne of England, was observed as a holiday in this metropolis; it was also duly observed by appropriate salutes throughout the realm of the British Government. The city was gaily decorated with flags and streamers, the naval vessels as well as mercantile marine of all nations have been profuse in their display of colors. Immense crowds filled the streets, all intent mainly upon witnessing the grand review of the volunteers by the Queen and Royal Family at Windsor, towards which point they were wending their way upon the numerous railroads. The day was made the special occasion of a grand review of the regular and volunteer troops at Windsor park, where for several days they had been arriving in large numbers from different points; salutes were fired from Windsor Castle and other prominent Government places at sunrise, noon and sunset. The Barracks at Windsor were gaily festooned and decorated, and the troops appeared in full dress uniform for the review. The weather was comparatively fine, although the morning was threatening, which had the effect of preventing many thousands from attending; with the exception of a slight shower, nothing occurred to mar the splendor of the occasion. The troops in line numbered 27,000, while being reviewed by her Majesty and her brilliant suite of gentlemen and officers of the royal household, they presented a scene of grandeur seldom if ever before witnessed in this country. After marching past and saluting the Queen and Royal *cortege*, the troops fired a marching salute to the object of the Grand Jubilee which took place in 1837, and then defiled over a bridge across the Thames constructed by the Royal Engineers, where they were dismissed. The throng was immense. The Queen and Royal Family were serenaded with marked enthusiasm by the Royal Bands. The fete concluded with festivities and reunions by civil and military organizations.

In the House of Lords last night the Irish Church Appointments Suspension Bill passed to first reading. Lord Cairns declared his intention to oppose the bill. Lord Strathearn presented a petition from the people of Nova Scotia against the Canadian Act of Union.

In House of Commons to-night the Irish Reform Bill was read a second time.

In the House of Lords this evening the Earl of Edinborough, in some remarks on the Abyssinian expedition, said on account of the unusual character of the services performed by the troops special honor should be paid them on their return.

Earl of Malmsbury, Keeper of Privy Seal, in reply said that the Ministry had not yet considered the point. The Duke of Cambridge, Commander-in-chief of the Army, expressed his opinion that unusual honors to the members of the Abyssinian expedition would be a bad precedent. The subject was then dropped.

The London *Telegraph* has been condemned to pay £900 sterling for publication of a libel.

PARIS, June 20—A solemn requiem mass was performed here on the 19th of June in commemoration of the death of Maximilian, it being the anniversary of his execution at Queretaro. The Empress Carlotta, [illegible] Miramon and a large number of Mexicans were present.

Clusert, editor of the *Journal of Arts*, was condemned to two months' imprisonment and a fine of 1000 francs for an article published in that paper.

SAN FRANCISCO, June 21—At half-past 5 o'clock yesterday afternoon a fire occurred in the store of A. Greenbaum & Co., 226 Front street, [illegible] Loss $90,000. Heink and Luke, cigar dealers, also lost about $30 000.

DELAYED DISPATCHES.

Europe.

LONDON, June 17—The University of Cambridge, to-day, conferred the degree of Doctor of Laws upon Longfellow, the poet. The Vice-Chancellor alluded to the generous reception of Dickens by Americans, and expressed gratification at the appointment of Reverdy Johnson as Minister.

BERLIN, June 17—In the North German Parliament to-day, the internal budget was adopted.

A report is in circulation that certain important papers have been discovered in Silesia, which reveal a plot to involve the lesser European Powers with France in a war against Prussia.

King William has gone to visit Hanover. It is the first time since the war with Austria.

Eastern States.

NEW YORK, June 18—The following is said to be an authoritative statement of the platform of Chief Justice Chase by himself: Universal suffrage as recognized by Democratic principles, the regulation of which is to be left in the several States under the Constitution of the United States, to themselves; universal amnesty and the complete removal of all liabilities on account of participating in the rebellion; full and satisfactory re-establishment of the practical relations of those States with active States of the American Union; no military government in any State of the Union in time of peace.

BURLINGTON, Vt., June 18—Eight tons of arms taken from Fenians by the United States Government, passed through this city en route from St. Albans to New York.

WASHINGTON, June 20—Mr. Sumner called up bill regarding an appropriation to owners of British steamer Lablaum for her illegal capture during the war. Mr Stewart said he would never consent to pay for any British ships until the Alabama claims were settled. Without action, the Senate adjourned.

WASHINGTON, June 16—In the Senate Sherman introduced a bill to promote commerce among the several States and cheapen the transportation of mails, munitions of war and naval stores. It proposes the construction of several railroads in different directions from Washington. Referred.

Stewart called up the House Bill to relieve the disabilities of certain citizens of North Carolina.

Question arose on the national currency bill proposing to withdraw *pro rata* amounts from the States having an excess of banking capital and distribute it among those requiring it, so as to place them on an equal footing with the former, in the House.

Dawes called up the Senate Amendment to the House Bill, removing all disabilities from Roderick R Butler, member of Congress elect from Tennessee, permitting the ordinary oath instead of the test oath. Concurred in by a two-thirds vote.

Mr Clark of Kansas, introduced a joint resolution for the relief of loyal Choctaws and Kickawas. Referred.

Sherman's bill provides for a separate incorporation of Washington and New York Railroad, Washington and Cleveland Railroad and the Telegraph Company of Washington and Cincinnati.

The *Intelligencer* this morning renews the assault on Secretary McCulloch with even more bitterness than yesterday. It asserts that his retention in office is opposed by every true friend of the President and his purpose and position in the Cabinet is similiar to that so long held by Stanton, and equally hostile to the administration.

It has been ascertained from army head quarters that General Buchanan will convene the Louisiana Legislature at an early day, to choose Senators and act on the pending amendments to the United States Constitution, but not to go into legislation. The recently elected State officials will not be allowed to be inaugurated till the Congressmen have been admitted. This course of action meets the approval of military officers here.

ST LOUIS, June 16—The Southwest Pacific Railroad was regularly transferred yesterday by the Government to the company and the work of construction was begun at once and is vigorously prosecuted.

CHICAGO, June 16—Preparations for the annual Saengerfest of the North American Saengerbund which formally opens to-morrow in this city, are on a magnificent scale. Delegations are present from all parts of the United States.

PORTLAND, June 17—The State Fenian Convention met here yesterday. General O'Neill delivered an address explanatory of the war movement which he is leading. Men and money were pledged by delegates present. Several officers, graduates of West Point, offered their services.

Mexico.

NEW YORK, June 17—General Negrete, Rega and other rebels were arranging for a war against the government. Negrete with 1400 rebels has gone to Guerrero. He was being enthusiastically received on the way. Four thousand rebels were concentrating at Jalapa. Rega had routed the regular troops in the State of Queretaro. Many arrests have been made in the past month in the City of Mexico.

HAVANA, June 16—By the arrival of the French steamer from Vera Cruz advices from Mexico to the 6th have been received. Lerdo de Tejado has been compelled to resign the Ministry of Foreign Affairs by order of the Supreme Court.

The press, with but few exceptions, clamor for a change in the Ministry. Castro has resigned the office of Minister of Justice. Porfiero Diaz is mentioned as successor to [illegible] who retires the position leader of the Supreme Court. Secor and Priela are both mentioned as successors to Romero at the head of the Treasury.

A revolution at the capital is expected if all the members do not resign. Discontent against Juarez is increasing because of his opposition to the action of the Judges of the Supreme Court and the will of the people. He claims the privilege to nominate all of his own Ministers.

SAN FRANCISCO, June 18—Assistant Treasurer Cheesman has received a telegram from Secretary McCulloch stating that June seven-thirty notes will be converted up to July 1st.

The bark Architect, from Humbolt Bay, reports an explosion in the Trinidad steam mills on the 15th inst., by which one man was killed, several others wounded and the mill badly damaged.

Last evening ex-officer Nolan was stabbed by a fellow named Mose Emery, whom Nolan ordered to desist from abusing a woman. His wound is not serious.

TELEGRAPH SOUNDINGS.—We learn that the soundings made by the U S gunboat Gettysburg from Jamaica to Aspinwall, are of a most satisfactory character. The greatest depth of water is about 600 fathoms, the bottom of the ocean level and muddy, and the entire route admirably adapted for the object in view. Between Jamaica and Cuba the water is very much deeper, being in some places as much as 3000 fathoms. As the Company is ready to commence the work immediately on receipt of favorable news, it is more than probable the end of the year will see the cable laid from Cuba to Jamaica and on its way to this isthmus.—*Panama Herald.*

The Cape of Good Hope

The Governor has issued a proclamation declaring the Basutos, British subjects and the country inhabited by them British territory.

Governor Woodhouse started for Free State on March 19.

It is stated that gold fields of great richness exist between the Zambesi and the Transvaal, in the Mekonos country.

Port Elizabeth papers say that the native stronghold, Kilmo, was taken by the Free State burghers on Feb. 22, and that they captured 1000 horses, 8000 sheep and goats, and 11,000 head of cattle, with the loss of only three men. The Basutos went off in the direction of Casigo, Moshesh's stronghold.

LIQUOR CARBONIS DETERGENS

OR

Concentrated Alcoholic Solution of the [trade mark: PERSEVERANDO VINCES, W.V.W. & Comp. TRADE MARK] it o COAL TAR

[Extract from the Lancet, Dec. 22, 1866

LIQ. CARBONIS DETERGENS— We are very sceptical of the value of new remedies, and it was in a spirit of scepticism that we tried the liq. carbonis detergens. It is represented ... of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, napthaline, and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others, such as fetid ulcers, etc., the preparation is put into the form of soap.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield; St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock, Harrow Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street.

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their frends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the ... DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Union.

Address Dr J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 252.

Consultations FREE.

Correspondents will please inform Dr Gibbon that they read his advertisement in the British Colonist.

SIXTH INDUSTRIAL EXHIBITION

—OF—

The Mechanics' Institute,

SAN FRANCISCO, CALIFORNIA.

THE BOARD OF DIRECTORS OF the Mechanics' Institute hereby give notice that the Sixth Industrial Exhibition of that Association will be held some time in August next, in a building to be erected for the purpose in Union Square in this city. Every preparation will be made to accommodate exhibitors and visitors with a view to make the Exhibition profitable, instructive and pleasant to all parties.

During the three years which have intervened since the holding of the last Exhibition in this city the manufacturing, mechanical, scientific and useful and ornamental arts have made unprecedented progress on this coast, and it is believed that the proposed Exhibition will exceed any other in value that has ever been held on the shores of the Pacific.

The plan of building to be erected, which has been adopted by the Board of Directors, it is believed will prove to be the best adapted, both for display and convenience of the public, of any building ever erected in the State. The building will be perfectly water tight, being covered with a shingle roof, so that no damage from the elements can be anticipated.

All parties who are interested in any of the branches of Manufactures, Mechanics, or the Arts and Sciences are invited to exhibit in the proposed Exhibition, and to share in the publicity and consequent profit which always attends such enterprises. Suitable premiums will be offered, and the specific date of opening the Exhibition will be published at some future time.

By order of the Board of Directors,
HORACE D. DUNN, Cor. Secretary.

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,
INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules more chronic cases.
